EXPERIENCE

I have been very fortunate to have worked and lived in both major markets of L.A. and New York City with some of the top directors in the world including: The Cronenweths, Joe Pytka, Jacob Rosenberg, Chase Strickland and Kim Nguyen just to name a few. Scottsdale, AZ is just a better place to raise a family. 98% of my work comes from outside Arizona with many clients outside the U.S. as well.

I always take pride in bringing projects in on or under budget. No matter how large or how small a project may be. I have produced for both production companies and agencies and definitely have a well rounded work experience and know what it takes to make a successful commercial campaign work.
