Education: BS in Marketing, Northeastern University, Boston, MA

I have run a commercial photography business since 1980. In 2007 I expanded my services to include video production complete with editing. In 2018 I added aerial photography.

Commercial Photography

I have traveled throughout the United States and Mexico for assignments that include national ad campaigns for the following clients; Avnet, Insight, Ashton Woods Homes and Cruise America. I have completed regional campaigns for Cox Communications, DMB Inc., Gainey Ranch and Suncor.

My clients expect advanced retouching for portraits and architectural images.

Video Production

My passion as a storyteller led me from stills to motion. In 2007 I made a sizeable investment in equipment and training and quickly began to provide corporate videos for my existing clients. I started as a cameraman and a director of photography. My fascination with the whole process of creating videos led me to become a producer, director, sound recorder and editor.

I have produced two commercials and many corporate sales and training videos.

Aerial Photography

Licensed and insured for commercial work. The DJI Phantom 4 Pro+ produces hi-res stills and 4K video.

Training and testing are a normal part of my schedule.

Giving back to the community

Each year I volunteer my services for at least one charitable organization. In recent years I have donated 12 to 100 plus hours to the following organizations or schools. Children First Academy, Phoenix; videos for homeless children
Flashes of Hope; photos of cancer patients at the Phoenix Children's Hospital
Special Olympics; Video
Desert Vista High School; Sports photos and videos for programs and web site
