SEDONA

*stay in
your element*

While planning your next stay, take a closer look at the newly opened Element of Sedona. Here, you can live a balanced life on the go, whether you're passing through or staying awhile.

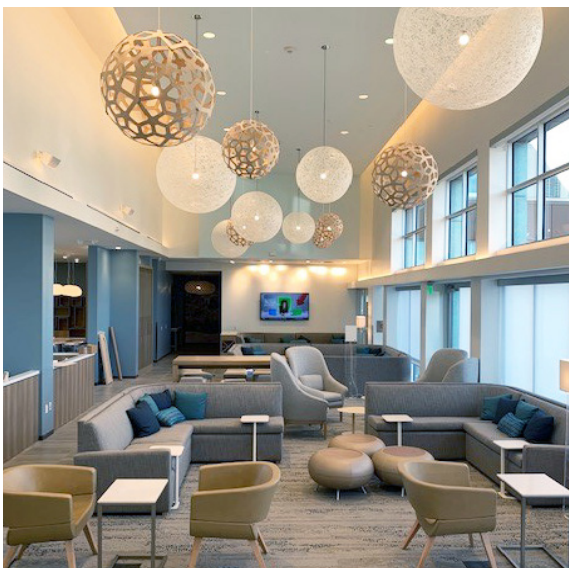

*built green from
the ground up*

Discover our smart eco-friendly features to preserve, conserve and make your stay unforgettable with vehicle charging, use of recycled materials in our design, construction and works of art found throughout Element Hotels, and eco-friendly yet spa-like bathroom amenities.

Element is proud to be part of Marriott's sustainability plan to change how the hospitality industry embraces green living. Together, we can help to preserve and protect our planet's natural resources.

*a focus
on wellness*

We want our guests to feel at home and welcome them to stay as long as they please. We've created space for guests to focus on wellness during their stay with our Bikes to Borrow program, Motion Fitness center, and all-natural saline pools.
