Overview

I'm an extremely passionate individual, that is committed to overdelivering on each production. I'm inspired by the great cinematographers and painters of old and am very meticulous in creating great images. I currently am in the motion picture production track with emphasis on cinematography. I'm looking to gain experience on productions big and small. I am mostly looking for jobs in the camera and lighting department due to my goal of becoming a working American Cinematographer.

Recent Projects

16mm Short pre-production (2021)

Spec Ad pre-production (2021)
