SCRUM GALANT GOOGLE WORKSPACE

We work in a hybrid way thanks to a set of practices that increase the efficiency and agility of our team, projects oriented to goals and delivery dates.

We love the desert, the beach, the mountains, traveling, the outdoors and above all materializing our ideas, no matter where we are.

KINO
ESTUDIO

Kino Estudio is a space dedicated to photographic and video production, it has also become a meeting point for the creative community of our region thanks to our program of workshops, film club and special events.

We believe that the growth of the artistic community can bring great opportunities for everyone, as well as encourage the creation and development of new high-impact projects.
