QUALIFICATIONS

I am an Emmy nominated ENG Videographer with 15 years experience. Since 1995, I have filmed a wide range of shows for television including the following: Shooting USA, Impossible Shots, Car & Driver TV, Horsepower TV, Trucks, American Shooter and RV Today. I have also worked on such entertainment shows as the CMA Award Show, CMT Insider, and Country Fried Videos. I have extensive experience filming and field producing live events and competitions nationwide for various networks.

Being both a team player and a hard worker, I am aggressive in "getting the shot", while at the same time using my creative ability to get multiple and varied angles to assist in the editing process. Always focused on what translates visually into a great final product, I am skilled at lighting, sequencing, and acquiring B-Roll. I am able to "chase the action" with hand-held cameras in extreme environments, while maintaining the integrity of the video and providing great composition.
